New Combined 9000/9100/9500 Service Manual

We have created a new service manual for the 9000, 9100, and 9500 control valves. The new service manual will have all three control valves and includes the electro mechanical, 3200ET and SE timers. The new service manual will be part number 40944.

We will use the remaining stock of the 9000 and 9500 service manuals. As stock is used up, we will obsolete the old service manuals.

Obsolete Old Service Manual

Replace with New Service Manual
